

CYBERSECURITY FOR IDENTITY & ACCESS MANAGEMENT (I&AM)

Cybersecurity is the practice of protecting systems, networks, data, devices, and programs from any malicious digital attacks that aim to access, change, or destroy sensitive information

OPPORTUNITY DEFINITION | CYBERSECURITY | IDENTITY & ACCESS MANAGEMENT SOLUTION

This initiative is part of the organization's ambition to implement an enterprise-wide Identity & Access Management solution (I&AM) to configure, manage and enforce a framework of policies that ensures that the right users have appropriate access to the information and technology resources.

TARGET MARKET

Target Market

QFCA – Organization's who have a requirement to automate identity control and access management at the enterprise level.

Target Users

- Qatar Financial Centre Authority Network & IT Teams
- Employees of QFCA

KEY PROBLEM STATEMENT | NEED

Identity and Access Management become increasingly important due to data privacy requirements, cyber security challenges and threats, as well as multifaceted organizations that are not confined to a single office location (Borderless Networks),

To implement an I&AM Solution, providing an additional layer of security towards a stronger cybersecurity portfolio that ensures that the access can be dynamically controlled, maintained and monitored at an enterprise level.

PROCUREMENT CYCLE

Identification Stage

The opportunity will be tendered in 2023.

TIMESPAN

Total duration of 9 months including identification, testing and implementation.

ADJACENT OPPORTUNITIES

- Cloud Migration

STAKEHOLDERS

- Qatar Financial Center Authority (QFCA)

OWNER AND SECTOR

Owner Qatar Financial Centre Authority (QFCA)

Sector Financial Services

BUDGET

The budget for the project is estimated to be in the range of **USD 135,000 – USD 216,000**.
