Digital Investment Opportunities in Qatar

TDV strives to position Qatar as a preferred digital investment destination. To realize this dream, TDV has created a "Digital Investment Catalogue" to identify and aggregate digital opportunities across various stakeholders in Qatar.

DIGITAL INVESTMENT CATALOGUE

The Digital Investment Catalogue is a centralized opportunity playbook that showcases tangible digital investment opportunities across various public and private sector entities in Qatar.

TASMU Digital Valley is currently working on the third version of its Digital Investment Catalogue, which will be launched soon, showcasing the future digital opportunities in Qatar.

Key Highlights of the 3rd Edition of the Catalogue

40+

Total number of partners / stakeholders engaged across Qatar

43+

Number of new opportunities

15+

Total number of partners who have contributed across all editions

10

Number of Partners contributed to current version

مركز قطر للمال
Qatar Financial Centre

The opportunities in our latest edition cover a broad set of technologies ranging from AI, IoT, Cloud to Blockchain (15 Focused Technologies). These technologies are expected to grow at a rapid pace over the next 5 to 10 years. Showcase of a small subset of imminent opportunities relevant to our members:

Automated Container Solution

Automate loading / unloading of containers to improve efficiency and improve safety

Chronic Disease Monitoring

Integrated digital care platform to allow management of several chronic conditions remotely

Digital Fitness and Nutritional Guide

Implement a digital platform that can provide a personalized nutrition and health plan

Event Companion Application in Sports

Digital interface for event delivery and fan experience, offering unified payment solution

Automated Picking Systems in Logistics

Enhance warehouse operations by reducing manual labor and errors, increasing efficiency

Blockchain for Enhanced Transparency

Blockchain adoption in operations and business processes to increase efficiency and security

Access the [Digital Investment Catalogue](#) on the TDV website for the latest digital investment opportunities.

Business Support & Acceleration

TDV supports start-ups and SMEs by facilitating business setup and growth services and incentives through its vast network of partners.

SERVICES FACILITATION

In the [previous version of our newsletter](#), we provided a bird's eye view of our vast range of services, facilitated through our Partners, to companies to kickstart and grow their businesses. Gauging interest from the large number of queries on business set-up, we found it prudent to detail out our support in terms of getting started in Qatar.

Business Setup Services Facilitation

Opportunities Access: Opportunity playbook providing early access to digital opportunities across the public and private sector.

Business Registration: Business registration support through select Partners simplifying number of transactions and waiting time required.

Office Space & Setup: Provide startups access to administrative and support services necessary when establishing a business in Qatar.

Technology IP Advisory & Registration Support: Guidance, support, and facilitation of intellectual property registration and management.

These services are provided by our vast network of preferred partners

Boosting Global Partnerships

TDV is currently partnering with prominent international ecosystems to leverage and accelerate the attraction of international start-ups and vice-versa, and provide valuable knowledge sharing opportunities.

BERLIN PARTNER – TDV COLLABORATION

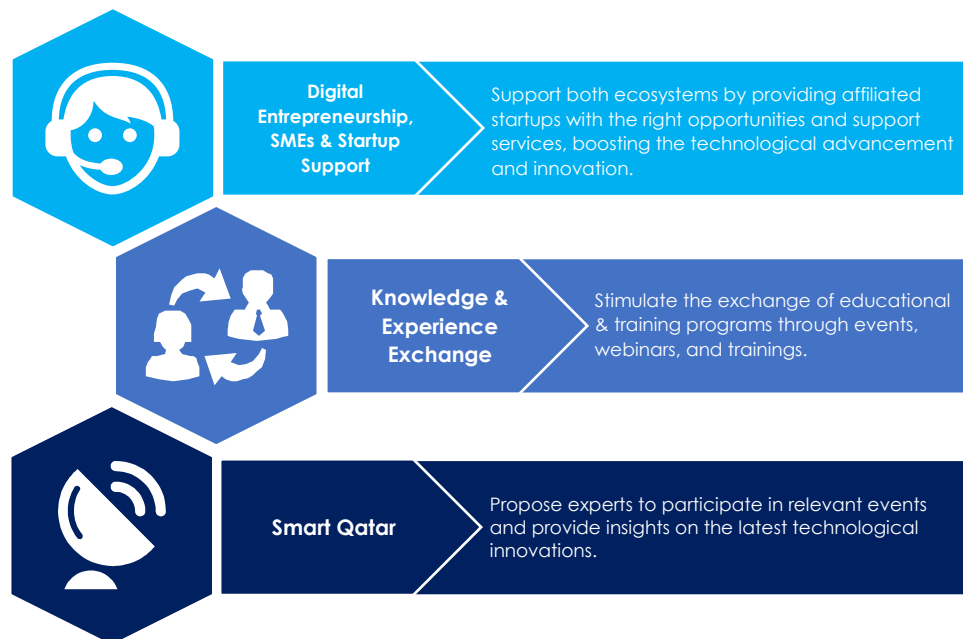

About Berlin Partner

Berlin Partner is an economic development agency that provides business and technology support for German companies, investors, and scientific institutions. This includes providing startups with tailored business facilitation, including access to funding, talent, international network and research and development.

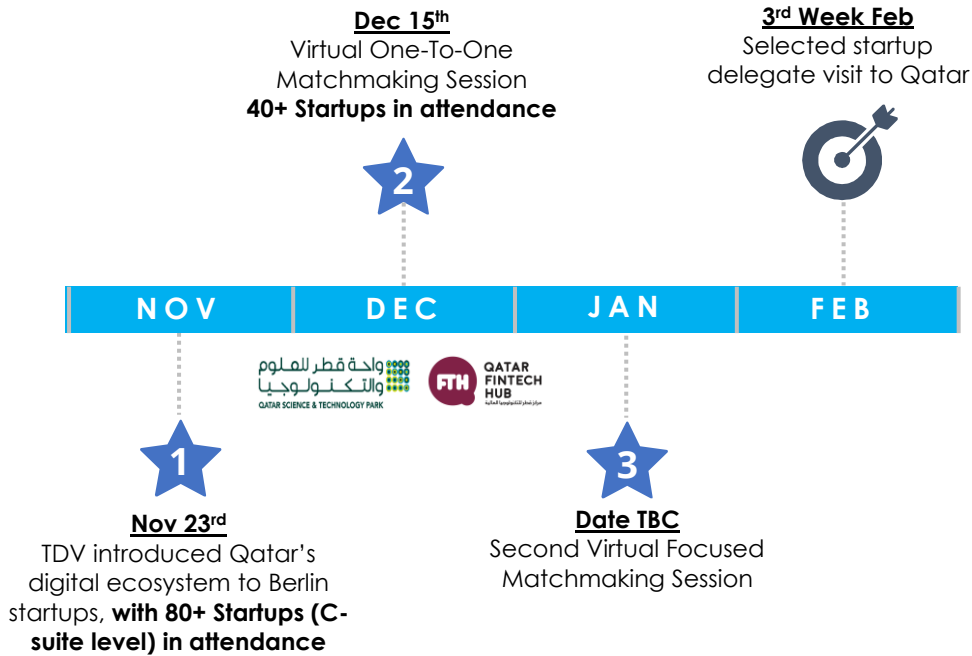

TDV – Berlin Partner Collaboration

TASMU Digital Valley (MCIT Qatar) and Berlin Partner (Berlin Technology and Innovation Hub) have come together to create and foster a mutually beneficial relationship which aims to promote each other's ecosystems with the goal of cross-pollinating ideas, best practices, and investment opportunities.

Berlin Startup Internationalization Program

To activate our partnership in the short term, we are focusing on a tailored Berlin Startup Internationalization Program. As part of this program, select Berlin startups will have the chance to visit Doha, and network with investors and partners. To support this delegate visit to Qatar, TDV and Berlin Partner are conducting a number of virtual events to provide information about our digital ecosystem, short-term market opportunities and virtual matchmaking.

Qatari Startups and SMEs, Get Ready!

As part of our partnership with Berlin Partner, selected local startups and SMEs interested in expanding their businesses to Europe, will get the chance to participate in tailored networking events, connect with the vast ecosystem, and potentially leverage accelerators and incubators.
