

# CYBERSECURITY FOR IDENTITY & ACCESS MANAGEMENT (I&AM)

Cybersecurity is the practice of protecting systems, networks, data, devices, and programs from any malicious digital attacks that aim to access, change, or destroy sensitive information

## OPPORTUNITY DEFINITION | CYBERSECURITY | IDENTITY & ACCESS MANAGEMENT SOLUTION

This initiative is part of the organization's ambition to implement an enterprise-wide Identity & Access Management solution (I&AM) to configure, manage and enforce a framework of policies that ensures that the right users have appropriate access to the information and technology resources.

### TARGET MARKET

#### Target Market

QFCA – Organization's who have a **requirement to automate identity control and access management** at the enterprise level.

#### Target Users

- Qatar Financial Centre Authority Network & IT Teams
- Employees of QFCA

### KEY PROBLEM STATEMENT | NEED

Identity and Access Management become increasingly important due to data privacy requirements, cyber security challenges and threats, as well as multifaceted organizations that are not confined to a single office location (Borderless Networks),

To implement an I&AM Solution, providing an additional layer of security towards a stronger cybersecurity portfolio that ensures that the access can be dynamically controlled, maintained and monitored at an enterprise level.

### PROCUREMENT CYCLE

#### Identification Stage

The opportunity will be tendered in 2023.

### TIMESPAN

Total duration of 9 months including identification, testing and implementation.

### ADJACENT OPPORTUNITIES

- Cloud Migration

### STAKEHOLDERS

- Qatar Financial Center Authority (QFCA)

### OWNER AND SECTOR

**Owner** Qatar Financial Centre Authority (QFCA)

**Sector** Financial Services

### BUDGET

The budget for the project is estimated to be in the range of **USD 135,000 – USD 216,000.**
